DCC is a must for this car to work!  
Note: The heatsink runs hot. Don’t try to supply 2 cameras.

See my “Model Railroad Vacuum Cleaner” project for more details.

High capacitance helps maintain power over “bumps”.

Print template and adhere to particle board block. Cut/sand to template size.

The FLOOR template is used for both the Vacuum and Video Camera cars.
 gambled black. To help hide hole. This is black? Hey, it’s what I had on hand!
ENDS AND ROOF PAINTED BLACK

CAR FLOOR IS DRILLED AND TAPPED
